¹ The 'Maintenance Fee for Low Volume/ High Complexity Clients' concerns clients which are considered by ING as either having low transaction volumes or as being a "high complexity client" (e.g. due to their company structure or other). The application of the 'Maintenance Fee for Low Volume/ High Complexity Clients' will be agreed to in a separate Pricing Agreement between each relevant client and ING and shall replace the standard maintenance fee or the non-resident maintenance fee (as the case may be) previously applicable to each such client.

² Code "INTC" must be used for intracompany flows to exclude these from the account turnover fee.

³ Interest rates for other currencies and other conditions are available via [Interest rates on current accounts • ING](#). Please also refer to Conditions (page 7).

⁴ If, for any reason, any of the client's accounts shows a negative (debit) balance or, in the event of an overdraft arrangement between ING and the client, the debit balance of the relevant account exceeds the permitted limit approved for the client, debit interest shall accrue on the amount of such debit balance or of such excess, as the case may be.

⁵ As ING is exposed to extra costs in case there are extra balances placed at year-end, ING reserves the rights to charge a flat fee of 15 basis points over the extra balances (see [Interest rates on current accounts • ING](#))
