² The 'Maintenance Fee for Low Volume/ High Complexity Clients' concerns clients which are considered by ING as either having low transaction volumes or as being a "high complexity client" (e.g. due to their company structure or other). The application of the 'Maintenance Fee for Low Volume/ High Complexity Clients' will be agreed to in a separate Pricing Agreement between each relevant client and ING and shall replace the standard maintenance fee or the non-resident maintenance fee (as the case may be) previously applicable to each such client.

³ Check <https://www.ingwb.com/> for the amount of interest and how it is calculated, as well as the interest on the foreign currency and third-party accounts. If market circumstances require, the credit interest rate can be negative, as a result of which the Client will have to pay interest to the Bank over a credit balance. Credit interest rates vary per currency and can be found via <https://www.ingwb.com/en/service/payments-and-collections/interest-rates-on-current-accounts>. As ING is exposed to extra costs in case there are extra balances placed at year-end, ING reserves the rights to charge a flat fee of 15bps over the extra balances (see above mentioned link)

If, for any reason, any of the clients' Accounts kept with ING shows a negative (debit) balance or, in the event of an overdraft arrangement between ING and the client, the debit balance of the relevant Account exceeds the permitted limit approved for the client, default interest shall be accrued on the amount of such debit balance or of such excess, as the case may be.

Applied exchange rate

The Bank executes payment transactions where a currency conversion is required in the following way:

- Transactions up to € 100K: using independent market standard reference rates published by Refinitiv (formerly known as Thomson Reuters) every day at 07:00, 11:00, 14:00 and 17:00 hrs. CET. Payments are processed immediately applying the rates of the last previously published Refinitiv rate update plus a service spread.
- Transactions over € 100K: using a "real time ING rate", established using a base rate determined on the principle of best execution including a service spread. ING guarantees the best execution principle by applying the best FX rate offered by any of 11 FX market liquidity providers (6 leading banks, 3 Electronic Communication Networks and 2 interbank brokers). The resulting base rate is updated every 2 seconds in our FX platform.

Details of exchange rate used for specific payment transactions are available on account statements / reporting.
