I c. Exchange Rates

In case of payment and transfer order with conversions the Bank executes them by using the Foreign Exchange Rates fixed at the booking date. Spot Rate Special Agreements' execution is linked to the international foreign exchange market operation (taking into account the foreign currency holidays). On foreign currency holiday the Bank reserves the right to refuse the Spot Rate Special Agreement.

Foreign Exchange Rates are reference rates, which are fixed by the Bank at least four times a day, based on the interbank foreign exchange rates (available interbank market rate plus the current ING foreign exchange rate margin). The first fixing shall take place between 8:30 a.m. and 9:00 a.m. (Budapest time) on a banking day.

Such rate shall be applicable to payment transactions of which the payment orders are accepted after cut-off time on the immediately preceding banking day, but before the second exchange rate is fixed on the actual banking

day. This rate shall also be applicable for incoming transactions that arrive after cut-off time on the immediately preceding banking day, but before the second exchange rate is fixed on the actual banking day.

The second fixing shall take place at 12:00 p.m. (Budapest time) on a banking day. Such rate shall be applicable to payment transactions of which the payment orders are accepted after the second exchange rate is fixed, but before the time of fixing the third exchange rate. This rate shall also be applicable for incoming transactions that arrive after the second exchange rate is fixed, but before the time of fixing the third exchange rate.

The third fixing shall take place between 15:00 and 15:30 (Budapest time) on a banking day. Such rate shall be applicable for incoming payments accepted after the third exchange rate is fixed, but before the time of fixing the fourth exchange rate. This rate shall also be applicable for incoming transactions that arrive after the third exchange rate is fixed, but before time of fixing the fourth exchange rate.

The fourth fixing shall take place between 16:00 and 16:30 (Budapest time) on a banking day. Such rate shall be applicable for incoming payments accepted after the fourth exchange rate is fixed, but before cut-off time on the same banking day. This rate shall also be applicable for incoming transactions that arrive after the fourth exchange rate is fixed, but before cut-off time on the same banking day.

In case it is justified by a significant fluctuation of the exchange rates occurred between the above mentioned time of fixing (i.e. the difference between the Refinitiv FX Trading BID, OFFER average and the last fixing of the ING mid-rate exceeds 0,25% of the ING mid-rate), the Bank reserves the right to quote new exchange rates as per the above methods and apply it to transactions until the immediately subsequent exchange rate is fixed.

Upon request, the Bank provides further information about Foreign Exchange Rates.

In case of cash desk transactions (cash deposit, cash withdrawal) with conversion the Bank executes by using the Cash Desk Foreign Exchange Rates fixed at the booking date. Cash Desk Foreign Exchange Rates are fixed and published at 8:00 a.m. every banking day, based on the daily foreign exchange rates (average of Refinitiv FX Trading BID, OFFER plus ING foreign exchange rate margin).

In case of corporate card transactions executed in foreign currencies the relevant MasterCard foreign exchange rates shall prevail. When debiting the sum of card transactions related to the use of ING Bank NV Amsterdam's Corporate card, the Bank applies the mid-rate prevailing on the debit date.

The actual Foreign Exchange Rates are published through the Bank's webpage and the InsideBusiness Payments system.

The following currencies are fixed by the Bank: USD, EUR, CHF, GBP, JPY, AUD, CAD, DKK, NOK, SEK, CZK, PLN, NZD, RON, SGD, THB, TRY, ZAR, ILS, BGN.

[1]In the case of DKK, NOK, SEK currencies, acceptance and provision must be agreed with the Bank at least 2 working days prior to the cash transaction.

I d. Exchange rates for SEPA, International and VIBER transactions

SEPA credit transfer or SEPA transfer orders are executed by the Bank at the FX Rates quoted on the day of the transaction, in case of conversion. The Bank determines the Exchange Rates on the basis of the current international exchange market rates and the prevailing ING Exchange Rate Margin. The Bank applies different Exchange Rates depending on the amount to be converted as follows:

- For transactions involving a currency conversion of less than EUR 100,000 or equivalent, the Exchange Rate applied by the Bank shall be (i) for a purchase by the customer, the rate of the most recently published Refinitiv (formerly Thomson Reuters) (mid-market rate) at the time of processing the transaction plus the prevailing ING Exchange Rate Margin, (ii) for a sale by the customer, the rate of the Bank's Exchange Rate minus the prevailing ING Exchange Rate Margin. The Refinitiv (mid-market) is published every banking day at 07:00, 11:00, 14:00 and 17:00. Transactions are processed immediately.
- For transactions involving a currency conversion of EUR 100,000 or more or equivalent, the Bank's FX Rate is the Bank's (i) current (live) Refinitiv mid-market rate at the time of execution of the transaction for (i) purchases by the customer plus the ING Exchange Rate margin at the time of execution of the transaction, (ii) sales by the customer less the ING Exchange Rate margin at the time of execution of the transaction.

The foreign exchange rates published by Refinitiv and the current ING spread are published electronically on the Bank's website, under the Useful links menu.

Within the above framework, exchange rates may change immediately and without prior notice. Details of the Exchange Rate used for each payment transaction are available on the statement of account. The Bank will provide further information on exchange rates on request.

I e. Interest on Unauthorised Utilisation of Overdraft Facility

If, for any reason, any of the clients' accounts kept with the Bank shows a negative (debit) balance or, in the event of an overdraft arrangement between the Bank and the client, the debit balance of the relevant account exceeds the permitted limit approved for the client, unauthorized overdraft interest shall be accrued on the amount of such debit balance or of such excess, as the case may be. The unauthorized overdraft interest rate shall equal to the prevailing base rate of the National Bank of Hungary plus 7% p.a. In case of current accounts kept in foreign currency the unauthorized overdraft interest rate is the relevant official daily reference rate quoted for the concerned foreign currency plus 7% p.a. In case of current accounts kept in USD the unauthorized overdraft interest rate is the USD Overnight SOFR plus 7% p.a. In case of current accounts kept in NOK the unauthorized overdraft interest rate is the NOK One-Week NIBOR plus 7% p. a. If the base rate, or the applicable daily and weekly reference rate (including the USD Overnight SOFR and NOK One-Week NIBOR) is below zero, it shall be deemed to be zero.

I f. Replacement of reference rate

In case (i) the methodology, formula or other means of determining any of the reference rate applied by the Bank under this List of Terms and Conditions has materially changed, or (ii) the administrator of the reference rate announces that (a) it is insolvent or that it shall cease to provide the reference rate with immediate effect (and there is no successor administrator) or (b) the reference rate may no longer be used or shall be indefinitely or permanently discontinued, the Bank, upon a written notice sent to the client, shall be entitled to apply a replacement base rate ("**Replacement Base Rate**") selected by the Bank in its sole reasonable discretion as a replacement of the reference rate.

The Bank, if possible, will select such a rate as Replacement Base Rate, which (a) is implemented, designated or recommended as a replacement by the administrator of the reference rate or a central bank or any other supervisory or regulatory authority; or (ii) is generally accepted in the international or domestic loan markets as the appropriate successor to the reference rate or otherwise an appropriate successor to the reference rate.

In case the Replacement Base Rate selected by the Bank and applied as a replacement of the reference rate is not acceptable to the client for any reason, the client shall be entitled to terminate the framework contract, as defined in the Act LXXXV of 2009, with a 30 day prior written notice, sent to the Bank within 15 days from the

receipt of the abovementioned notice of the Bank. In this case the Bank and the client shall be obliged to settle up with each other by the end of the termination period, at the latest, and the client shall be obliged to fully repay its outstanding total debt to the Bank. Should the client fail to exercise its right of termination within the above mentioned period of 15 days, the application of the Replacement Base Rate shall be considered to be accepted by the client.
