<sup>1</sup> This fee is applicable for the maintenance of an account in a country outside of your country of incorporation.

<sup>2</sup> The 'Maintenance Fee for Low Volume/ High Complexity Clients' concerns clients which are considered by ING as either having low transaction volumes or as being a "high complexity client" (e.g. due to their company structure or other). The application of the 'Maintenance Fee for Low Volume/ High Complexity Clients' will be agreed to in a separate Pricing Agreement between each relevant client and ING and shall replace the standard maintenance fee or the non-resident maintenance fee (as the case may be) previously applicable to each such client.

<sup>3</sup> Check <https://www.ingwb.com/> for the amount of interest and how it is calculated, as well as the interest on the foreign currency and third-party accounts. If market circumstances require, the credit interest rate can be negative, as a result of which the Client will have to pay interest to the Bank over a credit balance. Credit interest rates vary per currency and can be found via <https://www.ingwb.com/en/service/payments-and-collections/interest-rates-on-current-accounts>. As ING is exposed to extra costs in case there are extra balances placed at year-end, ING reserves the rights to charge a flat fee of 15bps over the extra balances (see above mentioned link)
