Exchange Rates

The Bank executes payment transactions where a currency conversion is required in the following way:

- Transactions up to £ 100K: using independent market standard reference rates published by Refinitiv (formerly known as Thomson Reuters) every day at 06:00, 10:00, 13:00 and 16:00 hrs GMT. Payments are processed immediately applying the rates of the last previously published Refinitiv rate update plus a service spread.
- Transactions over £ 100K: using a “real time ING rate”, established using a base rate determined on the principle of best execution including a service spread. As ING guarantees the best execution principle by applying the best FX rate offered by any of 11 FX market liquidity providers (6 leading banks, 3 Electronic Communication Networks and 2 interbank brokers). The resulting base rate is updated every 2 seconds in our FX platform.

Details of exchange rate used for specific payment transactions are available on account statements/reporting.
