- Transactions up to EUR 100K: using independent market standard reference rates published by Refinitiv (formerly known as Thomson Reuters) every day at 07:00, 11:00, 14:00 and 17:00 hrs. CET. Payments are processed immediately applying the rates of the last previously published Refinitiv rate update plus a service spread.
- Transactions over EUR 100K: using a "real time ING rate", established using a base rate determined on the principle of best execution including a service spread. ING guarantees the best execution principle by applying the best FX rate offered by any of 11 FX market liquidity providers (6 leading banks, 3 Electronic Communication Networks and 2 interbank brokers).
