Information regarding Business Days and the execution of Payment Services can be found on:

<http://www.government.bg> A Business Day is each Business day, except the official holidays in Bulgaria as listed in the Labour Code, weekly non-working days (Saturday and Sunday) and/or other official holidays and non-working days as announced by the Council of Ministers. Information regarding TARGET closing days can be found on: <http://www.ecb.int/home/html/holidays.en.html>

Debit and Credit interest rates

If, for any reason, any of the clients' accounts kept with ING shows a negative (debit) balance or, in the event of an overdraft arrangement between ING and the client, the debit balance of the relevant account exceeds the permitted limit approved for the client, default interest shall be accrued on the amount of such debit balance or of such excess, as the case may be. Default interest is calculated on the daily debit balance based on fix rate of 7.00% for USD and 5.00% for BGN, EUR and all other currencies. Interest paid on credit balances on Current Accounts are at ING's discretion and are available upon request.

Standard Corporate Customer Terms and Conditions

The present Standard Corporate Customer Terms and Conditions (also referred to as the Tariff Brochure for Transaction Services) are an integral part of ING's Wholesale Banking Condition as in force from time to time and apply to the relationship between any client and ING and to all Services provided by ING as agreed in the agreement with such client. The present Standard Corporate Customer Terms and Conditions apply to normal transactions. An additional charge may be negotiated for special services.

Calculation of commissions and taxes

The fixed values of commissions and taxes, expressed in one currency, if payable in other currencies, shall be calculated at the official exchange rate announced by the BNB for the date of the transaction.

Party to pay commissions

All commissions, postal and other out-of-pocket expenses are due by the party, which initiates the transaction, unless otherwise expressly stipulated.

Compensated value date

In case the Client requests a Payment Order with same day value (SDVA code word), ING will make sure that the debit value date will correspond with the date on which the PSP of the Beneficiary is credited. Compensated value date is chargeable according to these Tariffs and Conditions.

Refusal Domestic Direct Debit

The client may revoke the payment order for a Direct Debit at the latest by the end of the Business day preceding the day agreed with the beneficiary for debiting the funds.

Modification of credit transfer

The client is able to modify a credit transfer, provided that such request has been received by the Bank in original latest one Business Day prior to the execution date. Modification is chargeable according to these Standard Corporate Customer Terms and Conditions.

Revocation of credit transfer

The client is able to revoke a credit transfer, provided that such revocation has been received by the Bank in original latest one Business Day prior to the execution date. Revocation is chargeable according to these Standard Corporate Customer Terms and Conditions.

Direct debit blocks

The client completes the Agreement for Direct Debit in three originals. All 3 copies should be brought to ING first. One remains for ING, the second copy is for the client and the third copy should be delivered to requesting bank. In case the client wants to terminate the Agreement for Direct Debit, or to make any amendment (such as to increase the maximum debited amount threshold or to change the debited account) this should be done by ING and the receiving bank must be informed afterwards about the changes. If the client does not state the exact expiration date of the Agreement for Direct Debit, then the Agreement is considered to be valid until the end of the calendar year. When the Agreement expires, the client may renew it by completing a new one and proceeding as described in the beginning.

Specific forms

The applicable forms accepted by the Bank are available in the Bank premises / Client Service area and on the website of the Bank.

Paper delivery

The execution time of outgoing Payment Orders can be extended by ING by one Business Day if Payment Orders are initiated by the Account Holder in paper form. It is not possible to submit Payment Orders in paper form for Batch Payments and Standing Orders.

Fixed Period Deposits Terms and Conditions

All interest rates are annual (per annum) and fixed for the term of the deposit. The method used for calculation of the accrued interest is simple interest formula. The interest basis for calculation of accrued interest is actual number of days / 360 (ACT/360). The payment of accrued interest of a term deposit is usually done on the maturity date of the deposit. Payment of accrued interest is also possible to be posted on a monthly basis. It is possible deposits to have amortizing Principal amount.

Term deposits are not revolving i.e. cannot be renewed (rolled-over) automatically by the Bank. It is the obligation of every client to monitor its deposits maturities, and as an option at the maturity of a deposit a Client can negotiate new term deposit with the Bank at the current interest rates. Minimum amount for a term deposit negotiated via phone is 1,000.000 currency units. Exceptions from this requirement can be made for clients, who have other deposits above the minimum required amount or average daily balances on current accounts from the previous month above the minimum required amount. Minimum amounts for term deposits executed via ING Trade is whatever the ING Trade system accepts as minimum denomination.

Early termination of a term deposit (before the agreed maturity date) at a Client request is possible. In that case, the Client sends to the Bank a written notification one business day prior to the desired date of early termination. The term deposit settlement amount will be equal to the principal amount plus half of the accrued interest to the day before the early termination date minus the breakage cost. The breakage cost will be calculated as the principal amount multiplied by the difference between the borrowing interest rate and the fixed rate of the deposit for the number of days from the early termination date until maturity date. However, if the borrowing interest rate is less than the fixed rate of the deposit the breakage cost shall be zero. The Borrowing interest rate is the interest rate at which the Bank is able to borrow the Principal amount in the interbank market for the period from the deposit early termination date to its original maturity date.

In case of excess market volatility as determined by the Bank, the Bank's Interest Rates Bulletin will not apply and the deposit interest rates shall be determined solely at the discretion of the Bank.
